New York Institute of Technology

Bachelor of Science in Electrical and Electronics Engineering; GPA: 3.56/4.00

New York, NY

Dual Degree Program

Academic Achievement

- o **Research Publication:** IEEE Journal: "Personal Access Control System Using Moving Object Detection and Face Recognition"

PROFESSIONAL EXPERIENCE

Microsoft Corporation

Senior Product Manager - CoreAI

Shanghai, China

March 2024 - Present

- o **Product Leadership:** Lead product design and strategy for AI Toolkit, empowering developers to build AI-powered applications with streamlined workflows
- o **Key Achievements:**
 - * Delivered core agent developer experiences in AI Toolkit, enabling developers to create intelligent agents from hours to minutes
 - * Drove exceptional user growth, scaling Monthly Active Users (MAU) from 15K to 60K in 6 months (300% growth)
 - * Led end-to-end product design from concept to market launch, establishing AI Toolkit as a leading developer tool
 - * Collaborated with AI research teams and engineering to translate cutting-edge AI capabilities into developer-friendly experiences

Microsoft Corporation

Product Manager - Cloud & AI Developer Division

Shanghai, China

September 2020 - March 2024

- o **Product Impact:** Drove developer toolchain strategy for Microsoft 365 platform (Teams, Outlook, Office.com), serving 20k+ monthly active developers for 300k end users.
- o **Key Achievements:** Reduce developer time-to-value from days to hours
 - * Enhanced Teams applications development with native Azure integration, reducing developer setup time
 - * Led end-to-end product design for Teams Toolkit Command Line Interface tools
 - * Delivered authentication SDKs that simplified developer onboarding flows, resulting in faster integration times
 - * Collaborated with cross-functional teams across 3 time zones to deliver features impacting millions of developers globally

Trip.com Group

Product Manager - Flight Business Unit

Shanghai, China

August 2018 - September 2020

- o **Product Impact:** Led product development for flight booking platform serving 400M+ annual users
- o **Key Achievements:**
 - * Enhanced automated refund/exchange system, reducing processing time and operational costs
 - * Integrated GDS ancillary services platform, increasing revenue and expanding service offerings
 - * Launched supplier partner portal for 200+ airline partners with real-time Trip Group platform integrations

Apple Inc.

Software Development Engineer - Online Store Engineering

Sunnyvale, CA

June 2017 - June 2018

- o **Project Impact:** Contributed to Apple Online Store Checkout Redesign serving millions of global customers
- o **Key Contributions:** Developed scalable web services using Scala, optimized system performance reducing API calls by 40%, and implemented CI/CD pipelines for automated deployment
